Accident / Incident Reports

Case #	Summary	Supervisor Response	Committee Action
2022-05-044	Officer hurt clavicle while straightening a street barrier	Facilities should have been contacted instead	Facilities has ordered new, easier to work with barriers. Root cause was misattributed to employee – training or procedures should be addressed there. Also, future accident sites will be taped off for repair by proper department
2022-05-047	A case of paper towels slipped from a top shelf as it was being pulled down, pinky finger hyperextended. Iced as treatment.	Use step stool next time; also top shelf should not contain the heavy items – heavier items should be moved to lower shelves.	Stanley will follow up with supervisor, Brian Wong.
2022-05-060	Lake water with stain (chemical) was spilled on student.	Provide PPE and safety training, as well as chemical handling training immediately prior to activity
